BlackBerry Access for Windows version 3.3.0.17 and BlackBerry Work for Windows version 3.3.0.398

This release of BlackBerry Access for Windows and BlackBerry Work for Windows features the following enhancements:

- **Native certificate keystore support:** You can now configure the UEM user credential profile to use a certificate from the native keystore for Windows devices. You can allow the use of any certificate that has been added to the keystore or you can define restrictions on which certificate the app can choose.
- **Unified File Manager:** The new Unified File Manager enhances file handling within BlackBerry Access for Windows by adding the ability to:
 - Create and manage local folders within the BlackBerry Access secure container
 - Perform actions like edit, move, rename, export (depending on application policy), securely edit, and delete
- **Set up conference details:** You can now add conference details to the new Calendar settings option so you can quickly add the details to meeting requests that you create.
- **Bookmark enhancement:** You can now bookmark the desktop Bookmark manager so you can find it quickly.
