What is BlackBerry Org Connect?

BlackBerry Org Connect allows BBM Enterprise users in your organization to look up and connect with BBM Enterprise users in external, trusted organizations that use Org Connect.

Org Connect allows organizations to set up a network of trusted organizations. Users in the organizations can look up, contact, and communicate with each other securely. External lookup between organizations is enabled only between organizations that have been verified by BlackBerry and registered for Org Connect.

To use Org Connect, you can register your organization from the management console in BlackBerry UEM version 12.10 on-premises or BlackBerry UEM Cloud. If you don't have a UEM instance, you can request one using your BlackBerry Online Account. After your organization is registered, you can invite other registered organizations to connect and enable BBM Enterprise contact lookup between organizations. You can also invite other organizations to register.

Known issues

Audit and logging

Information about changes to the organization profile aren't shown in the audit entry. (JI 2590157)

If you make a change to your organization's profile, the action "Organization profile updated" is added to the audit log, but no information about the content of the change is shown.

Two entries created when organization profile is edited (JI 2590154)

When you edit your organization's profile and save the changes, two entries are created in the audit and logging table.

Mailbox

Messages in the email inbox have a no reply address, but replies go to the sender (JI 2610042)

Messages received in your email inbox appear to come from a no reply address. You can reply to the messages and your message is sent to the connected organization that sent them.

User interface performance

Organization logos that are not square are stretched the fit in logo field (JI 2635710)

If you upload a logo that is not square, the aspect ratio is changed when it is stretched to fit the logo field

Error message sometimes displayed with success confirmation (JI 2589328)

When you perform an action in the Org Connect plug-in, an error message is sometimes displayed at the same time as the success message and the action is not completed.

Workaround: Repeat the action and it completes successfully with no error message.

Column sorting doesn't work on All organizations, My network, and Audit and logging pages (JI 2532852)

In the All organizations, My network, and Audit and logging tables, the columns are not reordered when you click the sorting icon.

Filters on All organizations, My network, and Audit and logging pages do not work as expected (JI 2590185, 2590214)

In the All organizations, My network, and Audit and logging tables, the filter options do not work as expected. For example, when filters are applied the counters for each filter are not updated.

Error message is displayed after creating a connection request on the All organizations page (JI 2603258)

When you send a connection request from the All organizations page, the error message "An error was encountered. The search could not be completed" is displayed and no organizations are displayed.

Workaround: On the menu bar, click All organizations. The list of organizations is displayed.
