What is BlackBerry Tasks?

BlackBerry Tasks provides you with a secure, synchronized connection to your tasks in your work email account so that you can create and manage your tasks while you are away from your desk. BlackBerry Tasks uses push notifications to make sure that changes to your tasks are synchronized and up to date on your device and in your work email account.

BlackBerry Tasks provides the following features:

Feature	Description
Text editing	Use texts to highlight important points.
Easy management of tasks	<ul style="list-style-type: none">• Experience a tabbed UI to easily manage current and future tasks• Boost engagement with recurring tasks, alerts, and sorting options• Create and view tasks directly from your calendar to easily manage deadlines• Convert an email into a task to stay on top of projects
Secure sharing and storing of data	Keep your data secure with FIPS-validated cryptography.

Installing and activating BlackBerry Tasks

Before you can begin using BlackBerry Tasks, you must activate it. You activate the app using one of the following methods:

- [Install BlackBerry Tasks and activate using an access key, activation password, or QR code](#): Choose this option if you have not installed the BlackBerry UEM Client on your device or if your administrator has not allowed the BlackBerry UEM Client to manage the activation of BlackBerry Dynamics apps.
- [Install and activate BlackBerry Tasks when the BlackBerry UEM Client or another BlackBerry Dynamics app is already activated](#): Choose this option if you have installed the BlackBerry UEM Client on your device and your administrator has allowed the BlackBerry UEM Client to manage the activation of BlackBerry Dynamics apps. This option appears in BlackBerry Tasks only if both of these conditions are met. If you do not see this option when you open BlackBerry Tasks, you must set up the app using an access key.

System requirements

To use BlackBerry Tasks, your device must meet the following requirements:

- Minimum OS requirements as listed in the [Mobile/Desktop OS and Enterprise Applications Compatibility Matrix](#)
- Wireless network connection

Install BlackBerry Tasks and activate using an access key, activation password, or QR code

Complete this task if you have not installed the BlackBerry UEM Client on your device and your administrator has not allowed the BlackBerry UEM Client to manage the activation of BlackBerry Dynamics apps, you do not have another BlackBerry Dynamics app already activated on your device, or you choose to activate the app using an access key, activation password, or QR code.

To get the activation credentials, choose one of the following options:

- Request an access key, activation password, or QR code from your administrator. Your administrator will send you an email with the activation details.
- Generate an access key, activation password, and QR code from your organization's self-service portal. If you do not know how to access your self-service portal, contact your administrator.

Note: If allowed by your organization, you can activate BlackBerry Tasks using Easy Activation. An Easy Activation key, when permitted, is supplied by another BlackBerry Dynamics app, like BlackBerry Access or BlackBerry Connect, as long as these apps are already installed and activated on your device. If available, you can activate BlackBerry Tasks using the container password for the activation app.

1. Request the activation credentials from your administrator or generate your own from your organization's self-service portal.
2. After you receive the email message with the activation credentials or have generated your own in the self-service portal, download and install BlackBerry Tasks from the App Store.
3. Tap **BlackBerry Tasks**.
4. Tap **Client End User License Agreement** to read the license agreement and, if you accept the terms, tap **I Agree**.
5. Complete one of the following tasks:

Activation method	Steps
Access key*	<ol style="list-style-type: none"> a. In the Email Address field, type the email address located in the activation email message that you received from your administrator or type your work email address if you generated your own access key. b. In the Activation password field, enter the access key, without hyphens, that is in your activation email message that you received from your administrator or enter the access key that you generated in the BlackBerry UEM Self-Service. The access key is not case sensitive. c. Tap Enter on the device.
Activation password*	<ol style="list-style-type: none"> a. In the Email Address field, type the email address that is in the activation email message that you received from your administrator or type your work email address if you generated your own activation password. b. In the Activation password field, enter the activation password that is in your activation email message that you received from your administrator or enter the activation password that you generated in the BlackBerry UEM Self-Service. c. Tap Enter on the device.
QR code	<ol style="list-style-type: none"> a. Tap Use QR code. b. Tap OK to give BlackBerry Tasks access to the camera. c. Scan the QR code in the activation email that you received in the activation email from your administrator or that you generated in the BlackBerry UEM Self-Service.

* Optionally, you can tap **Advanced Settings** and enter your email address, access key or activation password, and the BlackBerry UEM address.

6. If prompted, create and confirm a password for BlackBerry Tasks. If your device is equipped with Touch ID, you can turn on this option to use instead of the password, except on initial startup.
7. If prompted, allow BlackBerry Tasks to use your location history to establish trusted locations.
8. Tap the BlackBerry Dynamics Launcher in the lower-right of the screen to start using BlackBerry Tasks.

Install and activate BlackBerry Tasks when the BlackBerry UEM Client or another BlackBerry Dynamics app is already activated

If you have installed and activated the BlackBerry UEM Client app on your device and your administrator has allowed the BlackBerry UEM Client to manage the activation of BlackBerry Dynamics apps or you have an existing BlackBerry Dynamics app already activated on your device, you do not have to use access keys or QR code to activate BlackBerry Tasks or any other BlackBerry Dynamics app that you want to install.

1. If the app was not automatically pushed to your device by your administrator, open your Work Apps app and install the BlackBerry Work app. If you do not see the BlackBerry Work app in your Work Apps app, contact your administrator to make the app available to you.

Note: If your administrator did not make the app available to you, you can download and install the BlackBerry Tasks app from the App Store. However, the application will not activate.

2. Tap **Tasks**.
3. Tap **Client End User License Agreement** to read the license agreement and, if you accept the terms, tap **I Agree**.
4. Tap **Allow** to allow BlackBerry Tasks to send notifications.
5. Tap **Set up using <BlackBerry UEM Client or BlackBerry Dynamics app that is installed and activated on the device>**.
6. Enter your password for the BlackBerry UEM Client or BlackBerry Dynamics app that is installed and activated on the device and tap **Enter**.

Configure a third-party identity provider for activating BlackBerry Dynamics apps on a device

You can configure a third-party identity provider so that users can sign-in with their directory credentials to activate BlackBerry Dynamics apps on a device. They can also use it to unlock an app or reset their BlackBerry Dynamics app password.

Before you begin: To configure this feature, you need the following:

- BlackBerry Dynamics apps compiled with a supported version of the BlackBerry Dynamics SDK.
- BlackBerry Enterprise Identity is enabled.

1. Configure your organization's third-party identity provider to work with BlackBerry Enterprise Identity.

- For information about configuring Okta and BlackBerry Enterprise Identity, see the [BlackBerry Enterprise Identity Administration Guide](#). Ensure that the Microsoft Active Directory that your organization's Okta instance uses is also configured in BlackBerry UEM through **Settings > External Integration > Company Directory**.
- For information about configuring PingFederate and BlackBerry Enterprise Identity, see the [BlackBerry Enterprise Identity Administration Guide](#).

2. Do one of the following:

- If you are using PingFederate or Okta, enable **Dynamics Activation via Enterprise IDP** as an OpenID Connect app.
- If you are using Active Directory as the identity provider, add the **Dynamics Active Directory Activation** as an OpenID Connect app.

For more information, see the [BlackBerry Enterprise Identity Administration Guide](#).

3. In BlackBerry UEM, set up your organization's identity provider. For more information, see the BlackBerry Enterprise Identity Administration Guide [PingFederate](#) and [Okta](#) instructions.
4. In BlackBerry UEM, create a BlackBerry Enterprise Identity Authentication policy. Ensure you select **Manage service exceptions**, and add the **Dynamics Activation via Enterprise IDP** service. For more information, see the [BlackBerry Enterprise Identity Administration Guide](#).
5. Assign the BlackBerry Enterprise Identity Authentication policy to users. For more information, see the [BlackBerry Enterprise Identity Administration Guide](#).

After you finish:

- During the activation process, users need to select the **Sign in with your organization if instructed by your administrator** option and sign in using your organization's identity provider.
- For more information, see the [UEM Client for Android User Guide](#).

Use a third-party identity provider to unlock, activate, and reset your password for BlackBerry Dynamics apps

You can use your log in credentials for your organization's third-party identity provider to unlock, activate, and reset your password for BlackBerry Dynamics apps.

Unlock a BlackBerry Dynamics app using a third-party identity provider

If one of your BlackBerry Dynamics apps, such as BlackBerry Work, has been locked, you can use your organization's identity provider to unlock the app. Note that your organization's administrator has to enable this feature before you can use it.

1. On the **Application Remote locked** screen on the device, tap **Unlock**.
2. On the **Application Unlock** screen, tap **Sign in**.
3. Enter the email address that you use to sign in to your organization's identity provider and tap **Next**.
4. Enter the username that you use to sign in to your organization's identity provider and tap **Next**.
5. Enter the password that you use to sign in to your organization's identity provider and tap **Sign in**.
6. After the BlackBerry Dynamics app activates, enter and confirm a new password.

Activate a BlackBerry Dynamics app after a device restore using a third-party identity provider

After you have restored your device from a backup, you can log in to the device with your organization's third-party identity provider (for example, Okta or Ping Identity) credentials and activate BlackBerry Dynamics apps.

1. On the **Application Unlock** screen, tap **Sign in**.
2. Enter the email address that you use to sign in to your organization's identity provider and tap **Next**.
3. Enter the username that you use to sign in to your organization's identity provider and tap **Next**.
4. Enter the password that you use to sign in to your organization's identity provider and tap **Sign in**.
5. After the BlackBerry Dynamics app activates, enter and confirm a new password.

Reset your BlackBerry Dynamics app password using a third-party identity provider

If you have forgotten the password for your BlackBerry Dynamics app, you can use your organization's third-party identity provider to set a new password.

1. When you are logging in to the app, on the password screen, tap **Forgot password**.
2. Tap **Sign in**.
3. Enter the email address that you use to sign in to your organization's identity provider and tap **Next**.
4. Enter the username that you use to sign in to your organization's identity provider and tap **Next**.
5. Enter the password that you use to sign in to your organization's identity provider and tap **Sign in**.
6. After the BlackBerry Dynamics app activates, enter and confirm a new password.

Your device must be activated on BlackBerry UEM version 12.9 or later.</p>
Adjust the BlackBerry Dynamics Launcher icon brightness.	Tap  and tap Launcher .
Close the Launcher.	Tap  .
Move the location of the BlackBerry Dynamics Launcher icon.	Tap  and slide it to place it anywhere on the screen.

Managing your tasks

You can view, create, edit, or delete tasks. These tasks are synchronized to and from your work email account.

Manage your tasks

When you open BlackBerry Tasks, a list of your active tasks is displayed. The list is synchronized with your work email account each time you open the app and every ten minutes while it is open. You can swipe down on the list to force synchronization at any time. Each task in the task list will display whether any of the following are specified for it: a priority -  (High) or  (Low). For Normal priority, no icon is displayed. Also, a reminder , recurrence , and/or a category .

This app supports Bluetooth keyboard navigation and shortcuts; hold down the Command key to display available shortcuts.

Note: You can view inline attachments and images in tasks. Depending on the Microsoft Exchange Server version and the email client that you are using, some of the following limitations might occur in your environment::

- If you edit the task properties in Outlook Web App 2013 or 2016, such as the subject or priority, any inline attachments will be removed in BlackBerry Tasks.
- If you edit the task body before the inline attachment is downloaded, the attachment may be removed. Users are warned when editing a task with an inline attachment that the attachment may be removed.
- If your mail server is Microsoft Exchange 2010, when tasks are first synchronized, all inline images will be made available in the attachments list and will not be placed inline.
- If your mail server is Microsoft Exchange 2013, inline attachments are not supported. All inline attachments will be made available in the attachment list.

About BlackBerry Tasks Permissions

Your device will prompt you for permission if you attempt to do the following in BlackBerry Tasks:

- Use the phone, including initiating a call from a meeting invite
- Enable picture-sharing
- Allow synchronization between BlackBerry Tasks contacts and native contacts

After you have been prompted and given permission in this way, you can later revoke the permissions in your device settings.

Frequently Asked Questions

FAQ	Answer
How do I change BlackBerry Work settings?	Tap  >  .
Why aren't my email messages synchronizing?	There is probably an issue with your connection to your mail server. If the issue persists after 1 hour, contact your administrator. Administrators can contact the BlackBerry Support Team if they require assistance to diagnose the underlying issue.
I'm getting too many email notifications. I can't distinguish between calendar reminders and new email alerts.	See Managing your notifications and alerts .
Why am I being prompted for my BlackBerry Work password so often?	Your administrator controls this behavior using a password timeout policy. System events may also cause the password to be required even when the timeout has not elapsed. When you stop using BlackBerry Work, Notes, or Tasks, password unlock is required in as few as 5 minutes. Additionally, the password is required on a "cold start". For example, after you restart a device or when you force quit the app and launch it again.
The blue circle with the BlackBerry logo is blocking an area on my screen. How can I move it?	The Launcher can be moved by pressing and holding it.

Prior to subscribing for, installing, or using any Third Party Products and Services, it is your responsibility to ensure that your airtime service provider has agreed to support all of their features. Some airtime service providers might not offer Internet browsing functionality with a subscription to the BlackBerry® Internet Service. Check with your service provider for availability, roaming arrangements, service plans and features. Installation or use of Third Party Products and Services with BlackBerry's products and services may require one or more patent, trademark, copyright, or other licenses in order to avoid infringement or violation of third party rights. You are solely responsible for determining whether to use Third Party Products and Services and if any third party licenses are required to do so. If required you are responsible for acquiring them. You should not install or use Third Party Products and Services until all necessary licenses have been acquired. Any Third Party Products and Services that are provided with BlackBerry's products and services are provided as a convenience to you and are provided "AS IS" with no express or implied conditions, endorsements, guarantees, representations, or warranties of any kind by BlackBerry and BlackBerry assumes no liability whatsoever, in relation thereto. Your use of Third Party Products and Services shall be governed by and subject to you agreeing to the terms of separate licenses and other agreements applicable thereto with third parties, except to the extent expressly covered by a license or other agreement with BlackBerry.

The terms of use of any BlackBerry product or service are set out in a separate license or other agreement with BlackBerry applicable thereto. NOTHING IN THIS DOCUMENTATION IS INTENDED TO SUPERSEDE ANY EXPRESS WRITTEN AGREEMENTS OR WARRANTIES PROVIDED BY BLACKBERRY FOR PORTIONS OF ANY BLACKBERRY PRODUCT OR SERVICE OTHER THAN THIS DOCUMENTATION.
