Timing of the next update to BlackBerry UEM Cloud

The latest version of BlackBerry UEM Cloud is currently scheduled to be released to the United States of America on May 16, 2023, the Americas and APAC regions on May 17, and the EMEA region on May 18.

What's new in BlackBerry UEM Cloud

Android

Android eSIM devices: BlackBerry UEM now provides an option to preserve the data plan on an Android eSIM device when you select the Delete all device data command. By default, the data plan information is preserved when you select the delete all device data command.

Management console

- **Show last password change:** The date and time of the last time that a user changed the password for BlackBerry UEM Client or a BlackBerry Dynamics app is now displayed in the Devices table and on the Device details page.
- **Support for multiple SIMs:** If a device has more than one SIM (for example, a physical and eSIM), information for all SIMs is now displayed in the Device report. The Device details page shows SIM information only for the phone number that has been selected by the user as the default for voice calls.

BlackBerry UEM Client

- **Support for Google Play Integrity API:** The UEM Client version 12.42.x or later now supports Google Play Integrity to provide additional protection from application tampering.
- **Support for Android 9:** Devices running Android 9 are no longer supported.

Fixed issues

User, device, and app management fixed issues

After you upgraded to or installed BlackBerry UEM 12.17 MR1, the log files for iOS devices were not automatically stored in the default location, C:\Program Files\BlackBerry\UEM\Logs\device_logs. (EMM-151509)

An error message was displayed when you tried to save a device wallpaper image in the Device settings for a Chrome OS org unit. (EMM-151488)

When you activated a new Android Enterprise device or deactivated and reactivated an existing Android Enterprise device after upgrading to BlackBerry UEM 12.17 MR1, the device activation did not complete successfully because the CA certificate had been updated in UEM 12.17 MR1. (EMM-151249)

Management console fixed issues

On the Users page, any Linked directory groups that the user is a part of did not display. (EMM-150812)

In the Device tab of an org unit, if you scheduled a device reboot and clicked Save, the save failed and no error message was displayed to indicate what caused the failure. Incorrect strings were also displayed in some of the fields. (EMM-150472)

Known issues

Migration known issue

After migrating a DEP device, users can remove the BlackBerry UEM profile from their device even when the "Allow removal of MDM profile" option is not selected in the DEP enrollment configuration. (EMM-150304)

User, device, and app management known issues

Note that some of these issues are for the BlackBerry UEM Client and will be fixed in a future release.

BlackBerry 10 is no longer supported. For more information, see [the announcement](#) from BlackBerry.

After you upgrade from BlackBerry UEM 12.17.1(a) to 12.18, device groups that include RSR versions are not updated automatically. (EMM-152033)

Workaround: Edit the device groups manually and save.

For iOS devices, RSR versions might be included in device groups that are intended to filter for a specific version and earlier or later versions. (EMM-152028)

If a Knox Service Plugin (KSP) policy is set to disable factory reset on a device and an administrator sends an IT command to wipe the device from BlackBerry UEM, the device will be unmanaged and cannot be reactivated or complete a factory reset. (EMA-17549)

Workaround: If devices are assigned a KSP policy that disables factory reset, create a KSP policy that allows it and assign the policy to the devices before you send the wipe command. For more information, visit <https://docs.samsungknox.com/admin/knox-service-plugin/kbas> to read article 844.

After you set up Chrome OS device management and click on the Network tab for an org unit, an error message stating that the profile could not be retrieved might be displayed. (EMM-151438)

After you remove Apple VPP apps from a device and unassign them from the user, the license consumption counts are not updated in the UEM management console. (EMM-151299)

Chrome OS devices will not synchronize with BlackBerry UEM if they are in an org unit that has no child org units. (EMM-150375)

During the Azure AD Conditional Access enrollment flow, the user might be prompted to register the device twice. (SIS-15411)

Workaround: If the user is enrolling only in conditional access, they shouldn't open the Microsoft Authenticator app from the app store after they install it, instead they should switch to the BlackBerry UEM Client and then open the Microsoft Authenticator app.

On some devices that are configured for ZSO authentication, when the user signs in to the ZSO service through the browser, a notification prompt appears unexpectedly to choose a certificate for authentication. (EMM-147606)

Workaround: Choose the "_Cirrus_SCEP_Profile_" option.

In dark site environments, when activating a Samsung Galaxy S 20 device running Android 11 with the Work and personal - full control (Android Enterprise) activation type with the premium option enabled, the device activates with the Android Enterprise workspace instead of the Knox workspace. (EMA-16736)

Users might not be prompted to set a workspace password during "Work and personal - user privacy (Android Enterprise)" activation. (EMA-16279)

If your organization uses PKI and Entrust smart credentials together, users might need to enroll the PKI certificate multiple times on the same device (maximum of once per app). (GD-35783)

Management console known issues

BlackBerry 10 is no longer supported. For more information, see [the announcement](#) from BlackBerry. Even though you will see instances of BlackBerry 10 in the console, you should no longer use those pages. All instances of BlackBerry 10 will be removed in a future release of BlackBerry UEM. (EMM-150314)

On the Managed devices > Advanced view page, the "Available updates" filter is missing. (EMM-150933)

When you try to re-enroll a DEP-enrolled device that doesn't have the BlackBerry UEM Client installed, the following error message is displayed: "An error was encountered. The device could not be migrated." (EMM-150780)

You cannot synchronize Chrome OS users that have a duplicate username. (EMM-150357)

When you are configuring Azure AD Conditional Access, an error message might display and the configuration might not complete successfully due to a timeout. (SIS-15834)

Workaround: Click Ok on the error message, click Save on the Azure Active Directory Conditional Access page, and complete the configuration steps again.

When compliance override policies are applied, BlackBerry UEM might not send the compliance violation status to Microsoft Azure AD conditional access. (EMM-148486)

If you don't configure an app server for Azure AD Conditional Access in the BlackBerry Dynamics connectivity profile, Microsoft online device registration does not occur. (EMM-148453)

Workaround: In the BlackBerry Dynamics connectivity profile, add an app server for Feature-Azure Conditional Access, direct the app server to the URL of your UEM Cloud instance, and use port 443.

After a BlackBerry Dynamics app migration with one certificate, the user might display in the management console with two certificates assigned to them. (EMM-147006)

If you have added a custom image that displays in the top-left corner of the management console, when you log in to the console the default BlackBerry logo displays instead of the custom image. (EMM-146978)

The BlackBerry Connectivity app might not be delivered to an Android device that has been activated using the "Work and personal - user privacy (Samsung Knox)" activation type and "Google Play app management for Samsung Knox Workspace devices" is enabled. (EMM-136648)

Workaround: Assign the .apk file to the device as an internal app and select the 'Publish app in Google domain' option.

BlackBerry Enterprise Mobility Server known issues

Microsoft has started to deprecate basic authentication for Exchange Online accounts. In BEMS Cloud (BlackBerry Dynamics > Email notifications), when you type an Office 365 email address to test connectivity to Microsoft Office 365 using the basic authentication type (Credential), the EWS test fails and displays a "Subscription failed for user" message. For more information, visit techcommunity.microsoft.com and read 'Basic Authentication Deprecation in Exchange Online – September 2022 Update'.

EXCEPT TO THE EXTENT SPECIFICALLY PROHIBITED BY APPLICABLE LAW IN YOUR JURISDICTION, ALL CONDITIONS, ENDORSEMENTS, GUARANTEES, REPRESENTATIONS, OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY CONDITIONS, ENDORSEMENTS, GUARANTEES, REPRESENTATIONS OR WARRANTIES OF DURABILITY, FITNESS FOR A PARTICULAR PURPOSE OR USE, MERCHANTABILITY, MERCHANTABLE QUALITY, NON-INFRINGEMENT, SATISFACTORY QUALITY, OR TITLE, OR ARISING FROM A STATUTE OR CUSTOM OR A COURSE OF DEALING OR USAGE OF TRADE, OR RELATED TO THE DOCUMENTATION OR ITS USE, OR PERFORMANCE OR NON-PERFORMANCE OF ANY SOFTWARE, HARDWARE, SERVICE, OR ANY THIRD PARTY PRODUCTS AND SERVICES REFERENCED HEREIN, ARE HEREBY EXCLUDED. YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY BY STATE OR PROVINCE. SOME JURISDICTIONS MAY NOT ALLOW THE EXCLUSION OR LIMITATION OF IMPLIED WARRANTIES AND CONDITIONS. TO THE EXTENT PERMITTED BY LAW, ANY IMPLIED WARRANTIES OR CONDITIONS RELATING TO THE DOCUMENTATION TO THE EXTENT THEY CANNOT BE EXCLUDED AS SET OUT ABOVE, BUT CAN BE LIMITED, ARE HEREBY LIMITED TO NINETY (90) DAYS FROM THE DATE YOU FIRST ACQUIRED THE DOCUMENTATION OR THE ITEM THAT IS THE SUBJECT OF THE CLAIM.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW IN YOUR JURISDICTION, IN NO EVENT SHALL BLACKBERRY BE LIABLE FOR ANY TYPE OF DAMAGES RELATED TO THIS DOCUMENTATION OR ITS USE, OR PERFORMANCE OR NON-PERFORMANCE OF ANY SOFTWARE, HARDWARE, SERVICE, OR ANY THIRD PARTY PRODUCTS AND SERVICES REFERENCED HEREIN INCLUDING WITHOUT LIMITATION ANY OF THE FOLLOWING DAMAGES: DIRECT, CONSEQUENTIAL, EXEMPLARY, INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, OR AGGRAVATED DAMAGES, DAMAGES FOR LOSS OF PROFITS OR REVENUES, FAILURE TO REALIZE ANY EXPECTED SAVINGS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF BUSINESS OPPORTUNITY, OR CORRUPTION OR LOSS OF DATA, FAILURES TO TRANSMIT OR RECEIVE ANY DATA, PROBLEMS ASSOCIATED WITH ANY APPLICATIONS USED IN CONJUNCTION WITH BLACKBERRY PRODUCTS OR SERVICES, DOWNTIME COSTS, LOSS OF THE USE OF BLACKBERRY PRODUCTS OR SERVICES OR ANY PORTION THEREOF OR OF ANY AIRTIME SERVICES, COST OF SUBSTITUTE GOODS, COSTS OF COVER, FACILITIES OR SERVICES, COST OF CAPITAL, OR OTHER SIMILAR PECUNIARY LOSSES, WHETHER OR NOT SUCH DAMAGES

WERE FORESEEN OR UNFORESEEN, AND EVEN IF BLACKBERRY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW IN YOUR JURISDICTION, BLACKBERRY SHALL HAVE NO OTHER OBLIGATION, DUTY, OR LIABILITY WHATSOEVER IN CONTRACT, TORT, OR OTHERWISE TO YOU INCLUDING ANY LIABILITY FOR NEGLIGENCE OR STRICT LIABILITY.

THE LIMITATIONS, EXCLUSIONS, AND DISCLAIMERS HEREIN SHALL APPLY: (A) IRRESPECTIVE OF THE NATURE OF THE CAUSE OF ACTION, DEMAND, OR ACTION BY YOU INCLUDING BUT NOT LIMITED TO BREACH OF CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR ANY OTHER LEGAL THEORY AND SHALL SURVIVE A FUNDAMENTAL BREACH OR BREACHES OR THE FAILURE OF THE ESSENTIAL PURPOSE OF THIS AGREEMENT OR OF ANY REMEDY CONTAINED HEREIN; AND (B) TO BLACKBERRY AND ITS AFFILIATED COMPANIES, THEIR SUCCESSORS, ASSIGNS, AGENTS, SUPPLIERS (INCLUDING AIRTIME SERVICE PROVIDERS), AUTHORIZED BLACKBERRY DISTRIBUTORS (ALSO INCLUDING AIRTIME SERVICE PROVIDERS) AND THEIR RESPECTIVE DIRECTORS, EMPLOYEES, AND INDEPENDENT CONTRACTORS.

IN ADDITION TO THE LIMITATIONS AND EXCLUSIONS SET OUT ABOVE, IN NO EVENT SHALL ANY DIRECTOR, EMPLOYEE, AGENT, DISTRIBUTOR, SUPPLIER, INDEPENDENT CONTRACTOR OF BLACKBERRY OR ANY AFFILIATES OF BLACKBERRY HAVE ANY LIABILITY ARISING FROM OR RELATED TO THE DOCUMENTATION.

Prior to subscribing for, installing, or using any Third Party Products and Services, it is your responsibility to ensure that your airtime service provider has agreed to support all of their features. Some airtime service providers might not offer Internet browsing functionality with a subscription to the BlackBerry® Internet Service. Check with your service provider for availability, roaming arrangements, service plans and features. Installation or use of Third Party Products and Services with BlackBerry's products and services may require one or more patent, trademark, copyright, or other licenses in order to avoid infringement or violation of third party rights. You are solely responsible for determining whether to use Third Party Products and Services and if any third party licenses are required to do so. If required you are responsible for acquiring them. You should not install or use Third Party Products and Services until all necessary licenses have been acquired. Any Third Party Products and Services that are provided with BlackBerry's products and services are provided as a convenience to you and are provided "AS IS" with no express or implied conditions, endorsements, guarantees, representations, or warranties of any kind by BlackBerry and BlackBerry assumes no liability whatsoever, in relation thereto. Your use of Third Party Products and Services shall be governed by and subject to you agreeing to the terms of separate licenses and other agreements applicable thereto with third parties, except to the extent expressly covered by a license or other agreement with BlackBerry.

The terms of use of any BlackBerry product or service are set out in a separate license or other agreement with BlackBerry applicable thereto. NOTHING IN THIS DOCUMENTATION IS INTENDED TO SUPERSEDE ANY EXPRESS WRITTEN AGREEMENTS OR WARRANTIES PROVIDED BY BLACKBERRY FOR PORTIONS OF ANY BLACKBERRY PRODUCT OR SERVICE OTHER THAN THIS DOCUMENTATION.

BlackBerry Enterprise Software incorporates certain third-party software. The license and copyright information associated with this software is available at <http://worldwide.blackberry.com/legal/thirdpartysoftware.jsp>.
